WHOLESALE TRADE LIST

of

STEELE'S  
SHREWSBURY  
NURSERIES

---

---

EATONTOWN  
NEW JERSEY

# TERMS AND CONDITIONS

CUSTOMERS are requested to state mode of shipping, express or freight, and by what route. When none is given we exercise our judgment, but in no case do we assume responsibility after goods are shipped unless for our own mistakes.

While we exercise the greatest care to have all trees, shrubs and plants sold by us genuine and reliable and hold ourselves prepared to replace, on proper proof, any that may prove otherwise, we do not give any warranty, express or implied, and in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the goods.

All claims for errors or deficiencies must be made immediately upon receipt of the goods.

TERMS—Cash with order from unknown parties or satisfactory references.

Five hundred will be furnished at the thousand rate; fifty at the hundred rate and five at the ten rate.

The prices quoted are for our selection. Where stock is selected by customers it will be charged for in accordance with its value.

Shipment in bulk will be packed at no charge. Where packing is done in boxes or bales a charge will be made to cover the cost of material used.

A certificate of inspection from the State Entomologist will accompany each shipment.

The Fall shipping season usually begins here about October 15th and the Spring season about March 15th.

Eatontown is about forty miles from New York on the Southern Division of the C. R. R. of N. J.

## FOREWORD

N presenting this Wholesale Trade List we feel that an apology is in order for the apparent high prices contained herein. We have endeavored to keep them down to a figure which will permit us a reasonable margin of profit over the present day high cost of operating, and we think they will be found to compare very favorably with the offerings of reputable firms, particularly where quality is a first consideration.

In many instances it will be found that we have listed stock as specimens. This term might well be applied to all of the stock we offer, as our chief consideration is to produce stock acceptable to the most discriminating client rather than to grow acreage lots. Where the term specimens is applied herein it indicates that the stock has been especially selected by reason of perfection in its particular type, and has been transplanted with a view to producing perfect development. Where specimen stock is required we earnestly recommend them.

5 to 6 ft.....	.50	4.50

## Evergreen Trees

Practically the whole of our Evergreens have been transplanted during the past two years. They are grown spaced far apart, and are kept well sheared, where necessary, to produce heavy specimens rather than elongated plants where height alone counts.

Prices quoted include digging with ball and burlapping.

### ABIES Canadensis. (See Tsuga.)
